ABOUT ME

An ambitious high school student interested in cybersecurity, AI, and neuroscience.

I am a self-taught Python (Junior level) enthusiast with a strong interest in cybersecurity.

Eager to continuously expand my knowledge and skills in both areas.

KEY COMPETENCIES

Python	Git/Github	Capable employee
SQL	Critical thinking skills	Proactive and self-motivated
Basic WebDev	Advanced Communication Skills	Ambitious and curious about IT news

PROFESSIONAL EXPERIENCE

Nave Security   **Nov 2023 - Present**
Neural Security Researcher

- Participated in numerous cybersecurity-related events
- Continuously expanded knowledge through platforms like TryHackMe, HTB, Coursera.
- Independent development

Freelancing & High School   **2019 - May 2025**

- Coded basic IT-related projects
- Deployed my own portfolio website
- Gained a lot of theoretical knowledge
- Done Coursera, Youtube, Udemy etc. - Self-development courses

EDUCATION & CERTIFICATIONS

Google Cybersecurity Specialization
Theoretical & Practical Cybersecurity Knowledge
by Google on Coursera   Jan 2024

Machine Learning with Python
by IBM on Coursera   Sep 2023

Many Short (30h>) Courses
Linkedin Learning   Jul 2023 - Sep 2023

EXTRACURRICULAR ACTIVITIES

Open-Source projects contribution
Github

Personal projects & continuous development
Python projects, learning about neuroscience, neurotech, IT news, Leetcoding, THM & HTB
